

# eFolder Product Roadmap

Q3 2018

eFolder's mission is to provide peace of mind by protecting business productivity.

We maintain that mission by sticking with our core values: absolute integrity, continuous innovation, exceptional reliability, compassionate service and going above and beyond.

The goal of sharing our Product Roadmap is to educate our partner community, promote continuous innovation, and increase transparency. We believe that this increased transparency will help us support our core values. More importantly, sharing our Roadmap will give our partners the ability to support their customers with more confidence.

Each quarterly Product Roadmap is broken down into the following sections for each product: Roadmap Themes, Recent Accomplishments and Current/Upcoming Epics.

We appreciate your business and invite you to reach out to us with additional feedback.

Adam Preeo  
Director, Product  
Management

# Replibit
