x360Recover Rack Quick Start Guide

axcient.com

Table of Contents

Introduction

This Quick Start Guide provides an overview of the Axcient Rack Appliance setup process, including:

- Setting up your x360Recover (formerly Replibit) BDR Appliance hardware,
- Connecting the power and network cables,
- Locating optional ports on the Appliance, and
- Powering on your x360Recover (formerly Replibit) Appliance.

Axcient Support

If you encounter problems during the setup process, contact Axcient support using one of the following methods:

- **Phone**: 1 (800) 715-2339
- **Submit a Ticket** (https://axcient.com/partner-support)

All Axcient product documentation is available in the Axcient Knowledgebase (https://support.efolder.net).

Warranty

The warranty period for this BDR was set at the time of purchase. Please reference your purchase invoice to identify the warranty period and starting date.
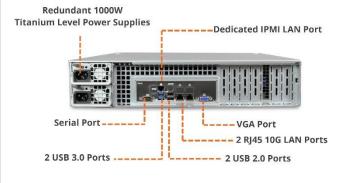

Quick Start Checklist

STEP 1: Open the Shipping Box

- ❑ Open the shipping box and remove its contents, including the Rack, the network cable, and the power cord.

Shipping Box   Appliance

Power Cord   Network Cable

STEP 2: Connect the Cables

- ❑ Connect one end of the provided network cable to the back of the Appliance and the other end to your network connection.
- ❑ Next, connect the power cable to the back of the Appliance and plug it into a power source.
- ❑ Optionally, connect a second network cable to the IPMI port. This model is equipped with IPMI functionality that can be used to securely access the BDR remotely. The IPMI is pre-set with a unique username and password, which are listed on the top cover near the left front side of the BDR. We recommend recording these credentials during the installation process.
- ❑ Optionally, connect the x360Recover Appliance to a monitor using a VGA cable (sold separately). You can then use the monitor to temporarily validate a successful boot and the IP address.

Power Button

STEP 3: Power On the Appliance

- ☐ Press the **Power** button to turn on the Appliance.

  The x360Recover backup software is pre-installed on the BDR Appliance and will automatically launch once fully booted. Most x360Recover appliances will also automatically obtain an IP address through DHCP.

  Note: To access drives, you must first remove the faceplate. To remove the faceplate, pull on the sides of the faceplate.

STEP 4: Record the IP Address

- ☐ If you connected a monitor to the BDR Appliance, the IP address will display directly on the screen. Record this IP Address.
- ☐ Using a PC on the same network, type the IP address into a Web browser to access the Appliance Web interface.
- ☐ When fully booted, x360Recover must be provisioned (licensed) using the Appliance Web interface.

  Your hardware setup is complete!

  To start protecting systems, please proceed with Web setup and provisioning
